### Georgia Milestones Review:

Given that the take rate across the district was less than 34% for EOG this data should not be used for any comparisons to previous school years or between different schools in the same school year. The population of students who took Milestones in 2021 throughout the district is not representative of the population at each school and is different from what it has been in previous years.

Morningside Elementary take rate was 74%, 291/393 enrolled students in 3, 4, & 5.
